Information:

- Get ready to get ghoulishly glamorous! Lady Hart (Paige) has opened her home, headpiece and costume collection to be shot by the incomparable shutterbug, Diamond Deville (Kate)!

- There are many areas to shoot in Haus of Hart. You will have full use of the house, including Halloween front yard, vintage living room, four poster bed, Hollywood mirror, gothic café, peacock chair throne and vintage lounge.
Paige will be on hand to help you dress, move things around and make you feel like the queen you are!

- There are too many costumes and headpieces to catalogue, but if you see it on the day and want to wear it, let's get you into it! Most colours lean towards gold, red, black, white, pink, cream etc. I have set up one silver area for silver girls, and there are plenty of blank walls to shoot on as well. Halloween is always big at Haus of Hart if you are into autumnal colours as well.

- Refreshments will be served, so you can nibble away whilst you get ready. Gluten free options will be readily available.

COVID INFO
- A re-clean and quick disinfect between shoots will ensure we are adhering to social distancing and COVID restrictions. If you are unwell, please stay home and we'd be happy to discuss another appointment with you.
